

GWN 2006 Top Tourism Town

The Southern Ocean has powerful rips and currents. Even on calm days, large waves and swells can occur without warning. Always watch the ocean.

Cliff edges can crumble or be slippery. Fishing from rocks is especially dangerous. Stay well clear of cliff edges and coastal rocks.

Follow the 'go taste albany' trail and excite your senses. Experience tantalising tastes straight from the farm gate and meet the producers. Drive yourself or organise a tour with Grape Southern Tours

Albany Visitor Centre
Old Railway Station,
Proudlove Parade
Albany WA 6330
